ENHANCING COORDINATION FOR SUCCESSFUL EVENTS

Harnessing the power of cutting-edge technology, ActivePlan for Special Events presents a pioneering approach to event management. This digital platform offers a seamless portal into the pulse of the event, showing a comprehensive overview of the event landscape. From the number of vendors and event attendees to the specific location details and available emergency resources, ActivePlan equips you with the data to make informed decisions.

KEY FEATURES

- **ACCESSIBILITY:** Digitizing your paper pre-plans brings the benefit of accessibility, allowing you to access critical information from anywhere, share it instantly with team members, and keep your emergency preparedness data up-to-date with ease.
- **DETAILED STAGING AREAS:** Provide precise staging area information before and during event to minimize communication and confusion when working with multiple agencies, vendors, volunteers, and groups.
- **ASSET/RESOURCE AVAILABILITY:** Identify and allocate available assets and resources including public works, utilities, and coordinating jurisdictions.

KEY FEATURES (CONTINUED)

- **LOCATION DETAILS:** Provides critical location information for stakeholders
- **USER-FRIENDLY INTERFACE:** User-friendly design, making it accessible even in high-pressure situations.
- **REAL-TIME UPDATES:** Ability to provide real-time updates to adapt to the changing circumstances

BENEFITS

- **IMPROVED EVENT PLANNING:** Significantly enhance the planning and coordination phase of special events.
- **ENHANCED COORDINATION:** Transitioning from paper-based preplanning to a digital product streamlines coordination and communication among stakeholders, ensuring real-time access to critical information for faster and more effective response before, during and after an event.
- **INCREASED SAFETY:** Contributes to the safety of first responders, stakeholders and the public by reducing response time in critical incidents during a special event by providing pre-planned information instantly to responding agencies or event managers.
