DataPort™

INSIGHTS BEYOND NUMBERS

DataPort uses Computer Aided Dispatch (CAD) or Record Management System (RMS) historical data to reveal valuable insights for improving performance analysis. It integrates effortlessly with these programs, offering unmatched access to previous incident data allowing you to discover trends and opportunities. Our sophisticated analytics engine converts raw data into practical insights, displayed on user-friendly dashboards. These reveal a complete picture of your performance metrics. From spotting inefficiencies to enhancing workflows, our product lets you make data-driven decisions and confidently pursue constant improvement.

KEY FEATURES

- **RMS AND CAD DATA CAPTURE:** Efficiently collect and integrate historical data from RMS and CAD systems.
- **PERSONALIZED REPORTING:** The standard tools include the following standard dashboard reports: YTD Summary, Quarterly Performance Overview, Final Situation Found, First Arriver Performance, Unit Performance, Weekly Unit Response Summary, Station Metrics, Turnout/Travel Over Time, and Incidents. Additional reports can be created for customized dashboards specific to the user's needs.
- **INTERACTIVE TOOLS:** The Incident Performance and Unit Management are performance based mapping tools that allow you to visual performance data.

KEY FEATURES (CONTINUED)

- **HISTORICAL INSIGHTS:** Historical data insights for immediate decision making in real-time and are easily exported for additional analysis.
- **SINGLE SOURCE VIEW:** Conveniently access all these features from a single source for enhanced efficiency.

BENEFITS

- **INFORMED DECISION MAKING:** This tool empowers users to make informed decisions based on historical data by answering frequently asked questions
- **IMPROVED EFFICIENCY:** The tool streamlines data collection and reporting processes
- **COMPREHENSIVE OVERSIGHT:** View all relevant information in one place with the click of a button for better decision-making
- **DATA ACCURACY:** Increased accuracy of data for informed response and planning strategies
