MitiTrack™

COMMON OPERATIONAL PICTURE FOR ALL HAZARD MITIGATION & PREPAREDNESS EFFORTS

MitiTrack™ equips you with the power to make informed decisions, grounded in accurate, up-to-date information. It's more than just tracking; it's about understanding, predicting, and optimizing your mitigation and prevention efforts. Tailored for Emergency Managers, Wildland Firefighters, and Fire Chiefs, it's more than a product, it's an intelligent tool.

KEY FEATURES

- **ALL-HAZARD MITIGATION Treatments:** Visualize and manage mitigation treatments for a variety of hazards including flooding, earthquake, hurricane, ice storms, tornado, tsunami, wildfire and winter weather.
- **PROJECT TRACKING:** Monitor project progress and budget spend with real-time tracking. Aggregate projects to provide a holistic view that incorporates all projects for a mitigation program, grant or other funding mechanism.
- **GRANT FUNDING:** Track grant funding fulfillment requirements, ensuring financial transparency and reporting.
- **BUDGETS: MANAGE BUDGETS** effectively to optimize resource allocation by tracking individual projects and/or vendors and their efforts servicing specific funding programs.
- **SINGLE SOURCE VIEW:** Access all these features from a single source for enhanced efficiency and convenience.

BENEFITS

- **ENHANCED EFFICIENCY:** Save time and resources by providing one point of entry for data to be viewed and easily extracted for reporting to local, state and federal databases.
- **COMPREHENSIVE OVERSIGHT:** View all relevant information in one place with the click of a button for better decision-making.
- **PERSONALIZATION:** Adapt to different environments with optional modules supporting all-hazard mitigation and preparedness efforts.
- **DATA ACCURACY:** Increase accuracy of data for informed mitigation strategies.

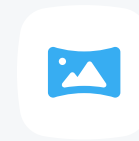

OPTIONAL MODULES *for* MitiTrack™

RealView™ *for* Metro

Map-based CAD integration solution is designed to improve incident management, streamline operations, and enhance the safety.

RealView provides an aggregated view of the resources allocated by a region, incident, station, or department with efficiency of emergency response teams.

RealView™ *for* Wildland

All-hazards map-based solution is a powerful tool tailored for wildfire management providing personalized data layers and real-time inputs.

RealView transforms incident response, providing situational awareness and adaptability whether preparing for an incident or responding during an incident.
